cress by the wealth of the country and adding to its strength and grandeur.

It is well understood that Minnesota is one of the largest wheat growing States of the Union and increasing in this respect every year. As soon as Lake Superior and Mississippi Railroad shall be completed to Duluth, which will be within a few weeks, flour can be transported from this point to the Atlantic coast as cheaply as from Chicago or Milwaukee, so that it will naturally come from the East in that direction rather than be transported four or five hundred miles to either of these cities. When Northern Pacific road shall be completed to Red river which will be within a year from this time, The wheat crop of that rich and very fertile valley, will find its way over that road, and through Lake Superior.

This company have a charter to extend their road easterly along the south shore of Lake Superior through Wisconsin and Michigan to Canada line, so there will be little doubt that a railroad can ultimately be built from the present eastern terminus of this road, running easterly south of Lake Superior and north of Lakes Huron, Erie and Ontario, through Canada to a point at or near Montreal, through the State of Maine to Province of New Brunswick, probably passing directly over our own Piscataquis road.

A glance at the map will show that the whole line will be remarkably direct nearly approaching our air line from Atlantic to Pacific coast, and that, the transportation between these extreme points and the intermediate cities will be much easier and more economical than by Chicago or any present route.

So it may turn out that the East and more especially the State of Maine has a deep and direct interest in the last enterprise of the Northern Pacific Railroad. M.

We are now quite sure that Belgium is safe from invasion, because the telegraph says it is certain that England will take action to defend Belgium. But what we are not told, and what we want to know, is, whether England is safe, and whether Belgium will take action to defend Great Britain. The entire "home force" of England is said to be 50,000 men, while Belgium has in position full 100,000. Belgium is a power small in territory but rich in resources and fully armed. She is well prepared for any emergency. The Independence Belge tells us that the concentration of troops at Antwerp is very great, that two *corps d' armee* are about to be formed, one of two and the other of three divisions, and that one of them will be under the command of Lieutenant General Baron Chazal. We believe, also, that everything is ready to summon the standards, if necessary, the three classes of militia. England, however, continues to be quite frantic and flustered about Belgium, and has taken a very warlike step to defend it. She has gone to the length of raising 20,000 extra troops. Will this, and the "home force" already spoken of, she will have 80,000 troops ready to march, or only 20,000 less than Belgium. Under these circumstances, Belgium may be pronounced practically "safe." The only remaining question is, in case she should declare war, would England be safe?

Gradually, with the sober, second thought of the people, it begins to appear that if the war between Bismarck and Napoleon, the former is likely to gain in any event, and the latter can only gain with brilliant victory. The cherished purpose of Bismarck has been and still is, German unity. The war, whether he whips Napoleon or not, has brought him this. Napoleon, if he returns to Paris without the laurel of signal victory, returns to an unwelcome fate. Is it not natural, then, to suppose that if there has been reluctance to engage in this strife, it has been on the part of some one beside Bismarck? The wily old Prussian can well afford to allow France to come to the Rhine, if, by that means he can unite Germany and at the same time remove all pretext for future hostilities on the part of France. And in his past career we see no reason for believing him incapable of such strategy.

An over-issue of stock of the Northwestern Virginia Railroad Company, commonly known as the Parkersburg Branch of the Baltimore & Ohio Railroad, and which is leased and worked by the latter company, is stated in a morning paper to amount to $300,000. It was made by the Secretary of the Company, John L. Crawford, who has resigned his office. The amount fixed is a supposition merely, as no statement has been made by Crawford and the Directors of the Road have not concluded their examination. The over issue is all hypothecated in Baltimore at about $15 a share, the par value of which is $50. Crawford was a confidential clerk of the banking house of Alexander Brown & Sons. For many years Ex-Senator Van Winkle of West Virginia, President of the Company, it is stated, entrusted to him blank certificates of stock bearing his signature.

While a party of men were handling some fixed ammunition in the laboratory outside of Fortress Monroe, Wednesday afternoon, a shell exploded, firing the building and killing John Trenilson, white, Joseph and William Johnson, and Henry Allen, colored, and wounding Frank Chisman, colored. The fire communicated to five other small buildings containing shell, and destroyed them. The fire department could render but little assistance on account of the bursting of shell which fell in every direction in and about the fort.

Thome, who advertises to jump from Suspension Bridge, Niagara Falls, jumped from the roof of an elevator into Buffalo Creek on Wednesday afternoon, a distance of 185 feet. When about two-thirds of the distance down, he lost his balance and fell on his side, causing serious injuries. He was taken into the elevator and medical aid was rendered. The water was only 14 feet deep where the jump was made.

WAR NOTES.

An immense entrenched camp is being prepared between Frankfort and Mayence. — The Russian fleet has sailed from Cronstadt to cruise in the Baltic. — Austrian has 40 army corps in Bohemia and another in Moravia. — 50,000 rations leave Turin daily for the French army. — The clerical party in Paris are making great efforts with the Empress to keep the French troops at Rome. — The Paris Pays of Monday demands the issue of reprisals against the 100,000 Germans now in Paris, which it denounces as spies. — It is reported that the ex-Confederate Generals Lee and Beauregard, offered their services to France, but were declined. — A large force of Wurtemburg troops has arrived in the vicinity of Haslé to sustain the Baden troops. — Arrangements for the evacuation of Rome have been terminated between France and Italy. — The latter Government will issue a declaration giving removed force to the September convention. — It is reported from Rome that also Pope accepts the situation and has commenced negotiations with the Government of King Victor Emanuel. — Papal Commissioners in Prince Ireland, Holland and Belgium are making great efforts to raise recruits for the pontifical service. — The Prussian troops in the field suffer from deficiency of camp equipage.

THE SARATOGA LIONS. We find than exchange the following complimentary mention of the lavish display of Hetmbold, Booner and Fisk: "Plenty of money, and to spend it freely and publicly, is a sure way to get the badge of high social distinction. It is a badge which consists in becoming topic of interest for the elegant and super-refined. To risk this sort of thing is its own reward, for he apparently loses notoriety for its own sake, and is willing to pay precisely for it. But Helmbold is a shrewd operator. The Boniface, he combines business advantages with personal conspicuousness, and when the first teams of either of these two men are examined or viewed with admiration by a gaping crowd, the fame of the horses is reflected upon the wares of its owner, and gist is brought to the drug mill on Broadway and the printing mill on Ann street. Hetmbold and Bonner are as fond as ever of public display, the railroad kings or the political chieftains. When men talk of the gorgeousness of Tweed's stables, they make awkward comments on the ways of New York county politics; when they behold Fisk's equipages, or Vanderbilt's teams they say nasty things about Wall street stock operations; but when Hetmbold and Bonner drive up, the comments help the drug and the newspaper into prominence, which involves profit to the pionaire men of legitimate business."

A PERILOUS UNDERTAKING. Many of our readers will remember, says the Portland Star, the wintering of two men on Moosehillock mountain last year, at an altitude of 3000 feet. The parties were Prof. J. H. Huntington, Assistant Geologist of the State of Hampshire and Mr. A. F. Clough, Photographer. It is proposed by these gentlemen, probably, one more who has not yet been found, to dwell on the summit of Mt Washington the coming winter, and food and supplies are being solicited. The gentlemen with Prof. Hitchcock, the geologist, are now making a geological survey of the New Hampshire mountains. Friends of science are everywhere sought to make a small contribution to the cause. The outfit will necessarily cost considerable, for it is proposed to establish a structure able to bring probably with Gorham, whereby the party will keep constant communication with the world. The observations will be of an exampled interest and we have no doubt, judging from the enthusiasm of the projection, that this remarkable winter sojourn will be accomplished.

LETTER FROM BELFAST.

Belfast, Aug 4th, 1870.

To the Editor of the Whig and Courier.

Dog-days have been quite cool and refreshing on the shores of the Penobscot. The drouth is broken, and we all greatly rejoice thereat. Farmers have nearly all finished haying and the grain harvest has commenced.

We note this afternoon upon the question of raising by loan 5 per cent. of the valuation of the city to aid in the completion of our railroad. The amount raised would be $150,000. This, with $350,000 of originally subscribed stock which is promised if the city aid be given, will furnish sufficient funds to complete the road. The vote will be very small, but largely in favor of the loan, two thirds vote being required. The result of the vote will be telegraphed this evening.

The Republican County Convention will be held here August 17, for nominate two Senators, a Sheriff, Clerk of Courts, Treasurer and County Commissioner.

The Democratic County Convention will be held here August 20th.

The annual camp meeting of Methodists at Wesleyan Grove, in the town of Northport, just below this city, commences Aug 20th.

Our Base Ball boys hope to make arrangements for a grand State Base Ball Tournament here this fall, and the indications now are that they will be successful.

A shooting affray occurred in Searsport this week. It was caused by some fowls belonging to one Morrow which got into his neighbor Peabody's grain. Peabody shot the hens and Morrow in retaliation shot Peabody, inflicting quite serious but not dangerous wounds. Morrow was arrested and put under bonds to not shoot any more.

The census taker of this city has just finished his duties. He makes the population of Belfast 5,270, against 4,520 in 1860. At the last census those persons temporarily absent were enumerated, which has not been done this time, therefore there has really been no gain. Whole number of polls, 1,130, which is an increase of 120. Number of males 2,570, females 2,710. Houses 900.

QUIMBY.

A dispatch in the evening states that by a large and most unanimous vote, Belfast voted yesterday to raise 5 per cent of its valuation in aid of the construction of the Belfast & Moosehead Lake Railroad. This insures the completion of this enterprise, in time to meet the issue to the Maine Central Railroad.

PURE TEAS.

Just Received

FROM JAPAN AND CHINA

BY THE

Mutual Store Company,

No. 22 & 24 Central Street,

Large invoices of fresh and very elegant Imported Teas, shipped by the most direct route, and selected by our American agent of the highest integrity and unbiased skill, sent out to China expressly to guard against, as if possible, perfect the transcendent excellence of the delicious plant from the prudent and consummate frauds practiced by the Chinamen in curing and shipping Teas for the American Market, and notwithstanding we succeeded in detecting and exposing John Chinaman's rascality, as one, spite of all, Teas will well afford, prices lower than can be found elsewhere in New England.

ALSO,

PURE COFFEES,

of the choicest grades, imported expressly for the "Mutual Store Co." from "Mocha," "Java," "Ceylon," "Rio," and "Porto Cabello," and can be sold for one profit only, which brings our Coffees cheaper in price than can be found at any other Store in the Country.

Our Roasted Coffee

is all prepared by an American House of long standing, and whose reputation for honesty and determination of integrity, is above all reproach, or suspicion, and will not be allowed to pass through the hands of the Chinamen, where they would inevitably receive the villainous adulteration. Stire to suit. Try them. Our

PURE SPICES

are already well known in this community, and are well appreciated. N. C.

We also keep a very large and carefully selected Stock of all kinds of goods entering into the stock of a retailing Grocery Store, and customers at our Store can buy not only Tea, Coffee, Spices, Molasses, and a few such articles, but also, Molasses of all grades, Syrups, Pork and Lard, Kerosene Oil, Flour, Meal, Butter, Eggs, and all kinds of country produce, everything in the Wooden Ware line, from ten cent Bucket to a Clothes-horse, also, English, French, English Pickles, English Mustards, English Sauces, Fresh Fruit, Sardines, Lobsters and Oysters in cans, Tomatoes in cans, and very cheap, all kinds of canned fruit, Jellies in Tumblers, a very fine lot of Raspberry Shrub, just the thing now used for mixing with Wines, Burnett's Kingsford's Cornstarch, Arrowroot, Maccaroni, Vermicelli, and all other flavoring extracts, Preston's Cocoa, and finally everything pertaining to a real

CERTIFICATES OF CURES.

This is to certify that Mrs. Manchester has doctored my family for six years with marked success. She has cured my wife of dropsy in its worst form, my daughter of spinal disease of five years standing, a sister of deafness and catarrh, my father of blindness and I feel no hesitation in recommending her as a skillful physician, and every way worthy of patronage.

JOHN ROBSON.

Portland, Maine

This is to certify that Mrs. Manchester has cured one of scrofula or liver disease of five years standing; I have consulted the best physicians in the country and have doctored no benefit. I called on Mrs. Manchester ten months ago, and commenced treatment, she cured them in January, have healed and I have thrown my crutches away, and am now well man. I am confident if I had not consulted this lady I should always have been a cripple.

E. H. & H. ROLLINS.

Let all mankind give her a fair trial, and I have no doubt you will be benefitted.

S. T. KING.

Biddeford, May 2, 1870. March 26, 1870.

A Case of Spinal Disease Cured.

DEAR MADAM:—When you were in this place last summer, I called upon you to consult my wife, who was spinal disease. I had not used my limbs to stand on them for three years. I have consulted eight or ten Physicians, none of them done me any good. But I still grew worse, but by your skill I am now in happy women, as I have full power and strength of my limbs. I must say to the public I go and consult Mrs. Manchester, and give her a fair trial, and you will be well paid.

Very truly yours,
CANDACE HILL,
Lewiston, Me.

ONE OF THE GREATEST CURES ON RECORD!

This is to certify that I have been sick for five years and have been to a great number of physicians, and one would tell me one thing, and another would tell me I had another disease, that I would go to another, and he would tell me an entirely different story, until I grew discouraged. I told the physicians that I felt as if something operating on my inside, but they all laughed at the idea of anything of the kind, and said I was nervous. For the last two years I commenced growing very large at times, and it seemed to me that my stomach was filling up, and when I retired at night it seemed as if something came in my throat, and I would almost suffocate. Reading Mrs. Manchester's advertisement I was induced to go and consult her. She examined me and told me my feelings exactly, and told me that I had a live animal of some kind in my stomach.

This is to certify that I went to see Mrs. Manchester the last March with a daughter of mine troubled with spinal disease for which she is been doctoring for five years, and by a number of physicians of all kinds and she has had twenty-one blisters, and electricity applied, but all to no effect; but she continually grew worse. I came to the conclusion, as the last resort, to go to Mrs Manchester, and did so, and to my great surprise she told me the first name of her disease, and how she has been all along, which encouraged me to try her medicines. I did so, and to my joy my daughter is able to be around the house and doing her work. She also rides out or walks without any trouble or in consciousness, and I think in a short time will be restored to perfect health. Since my daughter has been doctoring, I have heard of several cases that Mrs Manchester has cured, I think it is my duty to recommend her to the public, and I know she will use every effort which lies in her power to benefit her patients.

AN ANOTHER VIEW OF THE SITUATION.

London Aug 1—The Paris correspondent of the Daily News states on Tuesday that the enthusiasm for war has entirely disappeared in Paris, and it is now evident that the war with Germany means a prolonged struggle against one million armed combatants, who are determined to defend their own country, and if possible to give the French a lesson that hereafter the Emperor's peculiar mode of making his reign an era of peace by attacking his neighbors, will be rendered impossible. The announcement that the fortifications of Paris are to be placed in a condition of defence and the Emperor's allusion that the war will be long, have singularly dampened the ardor of those who imagined that within a fortnight a glorious peace, which would reestablish the supremacy of the French arms, would be signed in Berlin. We are still told that Germans are in mourning at the idea of encountering Mitrailleuses and Turcos, but the legend has lost its effect.

The forces of England are rapidly filling with German vessels, anxious to escape French cruisers.

A circular has lately appeared from Senor Sagasta declaring Spain as innocent of the trouble between France and Prussia.

THE STATE OF THE SEPTIT

London Aug 4 The London Daily News records important contradiction to the statement of the Paris Debats, respecting the secret treaty. The Debats says that the treaty was not secret but as the project was induced by the Times and vigorously denunciated it was with the concurrence not only of the Government of France and Prussia, but of the English Government, and that it was in the hands of the English Government.

The Daily News responds without any fear of well founded contradiction.

We stand upon ourselves to assert that our Paris contemporary is misinformed. The projected treaty was never in the hands of the English Government at first came under the notice when it was published in the Times.

The News suggests that any member of Parliament who wishes to be officially assured of the absolute ignorance of the foreign office, has only to put the question to elicit a distinctly negative answer.

ANOTHER FIGHT

Cable dispatches from Berlin state that another fight is reported at the town of Gersweiler. A detachment of French crossed the line and took possession of the village. The Prussians then attacked the French and dislodged them from their position in the village which they retired with a loss of nine killed.

FOREIGN VESSELS ON THE MORGAN COAST

London, 4—Two vessels of the contingent channel squadron sail from Plymouth this morning for a secret rendezvous off the Belgian coast.

ANOTHER CIRCULAR FROM M. GRAMMONT

Paris, 4th—M Grammont has issued another circular reaffirming that the aggressive propositions originated in Berlin. He says France made none—on the contrary she evidenced her disarmament. Grammont concludes that owing to the falsehoods Bismarck has already uttered through fear that he has lost all claim to be believed hereafter.

PRUSSIAN PRISONERS.

Metz 4th—Fourteen Prussian soldiers who were captured at the attack on Saarbruck, passed through this city late yesterday afternoon. A part were taken to Belfort and part to Mulich where they will be imprisoned. The Prussian wounded have been cared for as well as the French.

ANOTHER ADVANCE IN DISCOUNT

London, Aug 4—noon—The officers of the Bank of England have just announced a still further advance in rate of discount of one per cent. The minimum rate is now 6 per cent.

AUSTRIAN NEUTRALITY

Pesth, 4th—The Diet of Hungary yesterday emphatically declared in favor of Austrian neutrality, in the Franco Prussian war.

Berlin, 4th—The officers of the Union Club of this city have accepted a large wager offered by W Thomas of Paris, that the French will be in Berlin on August 15th.

The Prussian reserve of 100,000 men is encamped in front of Berlin.

Forage is scarce in the Rhine Provinces, and the Prussian Cavalry are suffering severely.

DENMARK DOUBTFUL.

Copenhagen, 4th—The Danish Government is still struggles hard to preserve neutrality but the popular excitement is intense. The ungovernable sympathy for France among all classes is very marked.

Paris 4—The heights taken by the French at Saarbruck form the key to the Railway approaches to Troyes.

THE APPEALS AT SAARBRUCKEN

Berlin, 4th—The Prussian Government furnishes the following account of the affair at Saarbrucken

The feeble garrison held Saarbrucken until the French deployed and advanced in three columns. The Prussians then retired to position north of the town, to observe the enemy. In spite of the free use by the French of the Mitrailleuse, Artillery and Chassepots, our losses are only two officers and seventy men. The loss of the French appeared to be more serious. Our troops were admirably cool.

M. GRAMMONT'S CIRCULAR.

Paris 4th.—The diplomatic circular of Grammont on disarmament refuting statements of Bismarck, terminates thus—

If Europe remains in arms millions of men are on the eve of shock of battle. It cannot be denied that the responsibility is Prussian, as she refused all idea of disarmament when we caused a proposal to be made, and began by giving the example. Her conduct is explained by the fact that at the hour when Francis contemplated reduction of her military contingent, the Cabinet at Berlin was secretly organizing the candidature of the Prussian Prince for the throne of Spain, so provocative of mischief. Whatever calumnies the federal Chancellor may invent, we feel that he has lost the right to be believed. The conscience of Europe and history will say that France sought only, while by indicating upon France preoccupied with development of her political institutions, no outrage no nation could accept, without incurring contempt.

A KING POOR TO BRAVE.

Lisbon, 4th.—It is reported that Don Fernando has accepted the proffer of the crown of Spain.

London, Aug 4 Offenbach, the opera bouffe composer, though a German, has published a French war song, entitled "God speed the Emperor."

London, Aug 4 It is rumored that Count Conmouth arrived here as a special messenger from M Grammont to assure the Government that the France will respect the reported neutrality of Belgium and that he has met with a cool reception.

Special to the New York Tribune—

London, Aug 4 The special correspondent at Saarbruck writes on Tuesday morning. Our guns are being brought opposite the French and will reply if the French open fire.

The same correspondent writing Monday night says, I thought at Sedan yesterday last letter that contribution from Saarbruck was finished and but subject for the railroad station, when a communication was received from one of the best informed in the place and I determined to stay, and to-day the monotony of Saarbruck has been broken.

Two thousand men, with 16 guns, have come within two miles of the town and two regiments are lying in the immediate neighborhood. The first and third battalions and the fourth Hohenzollern Fusileers made their appearance on the Saarbruck road at the top of a hill, two miles out of Saarbruck, at five o clock. With them came 40 guns and a long line of wagons. They did not come into the town, but turned into a large field high upon the hill, where they will bivouac.

To-night the wildest joy at the news of their approach. The townspeople went up to the field to view them with provisions, presents of cigars, etc.

"Gott Sieghaft" came from the mouth of a patriot at my side as the first of the cannon appeared.

When I wrote my first letter there were hardly more than 500 men but Saarbruck and but the Prussians made a forward move, even with a small part of their forces about Forbach, we should have made no resistance to them whatever but from one source or another our force was largely exaggerated. The Paris papers have credited us with an extraordinary force. There are at present in Saarbruck, or just outside of the place, 2000 men and the 48th regiment with 16 guns. Within a short distance the 9th Hussars and 60th regiment of the line, with 30 guns, and the 30th regiment, which was to come here to day, advanced nearly into Saarbruck and then turned in another direction. The destination of the regiment is unknown.

Gen Von Goben made his appearance here yesterday and remained for a short time. This present commander is General Von Grissenier.

Paris, Aug 4 The Empress came to the Tuilleries to-day and presided at the Council of Ministers.

The Gaulois says that the Emperor will issue a decree making the Marseillaise, henceforth the National air of France. During the fight at Saarbruck it was played by the band.

Paris, Aug 4 The Constitutional says that the agent of Prince Charles of Roumania in Paris took an active part in procuring the renunciation of the throne of Spain by his brother Prince Leopold. The Berlin Government, disgusted at the conduct of the Prince, have demanded his dismissal, but Prince Charles refuses to yield to the demand.

A careful inquiry into the matter discloses the fact that no such company exists, and that the whole thing is a swindle.

THEATRE.—Notwithstanding the unpleasant weather, Norumbega Hall was well filled last evening, it the performance of a dramatic version of Dickens's "Oliver Twist." The drama represents little but the evil passions, Oliver being about the only pure creation in it, yet it is a play of much power. The most scenes in it which make the blood run cold, but the interest of the spectator never flags. It was presented in a very effective manner. Miss Western's Nancy Sykes is one of her most powerful characters, and Mr Herne's Bill Sykes was a very faithful portraiture. Mr J Murray as Fagin and Mr Scallan as "the Artful" were excellent and the support as a whole was very good.

THE TROT AT ORONO.—*Mr. Editor*,—There was a fair attendance at the Webster Trotting Park on Wednesday, and everything passed off satisfactorily, although the trot would have been more interesting, perhaps, had the horses contesting for the prizes been more evenly matched. COLBY COMMENCEMENT.—At the meeting of the Trustees on Tuesday, says the Lewiston Journal, little was done besides the making of the annual appropriations, and the hearing of reports.

On Wednesday morning money to the amount of $41,000 which was subscribed on the condition that it should be increased by other pledges to $80,000, and to $45,000 that the desired $45,000 was subscribed in small sums by individuals and classes generally.

The funds raised by the trustees were appropriated to the erection of a laboratory, increase of cabinet and general repairs. The old chapel is to be entirely renovated and refitted for recitation rooms. The contributions to the $45,000 were Judge Wordbury, Washington, D C, $10,000, Gardner Colby, $10,000, Hon J W. Merrill, $10,000, Hon Abner Coburn $10,000, Andrew, $1,000. At the commencement dinner, sat down nearly two hundred of the alumni and friends of the University. THE DEMOCRATIC CONVENTION AT SACO.—The representative Democrats of the First Congressional District assembled in the Town Hall at Saco, Tuesday forenoon, a few minutes past 11 o'clock, transacted their business with unparalleled rapidity, and adjourned at 15 minutes before 12 o'clock. The entire session occupied about 35 minutes.

Gen. Samuel J Anderson of Portland, was elected chairman, and Col John M Adams of Portland, and Marcus Watson of Biddeford, secretaries.

There were 244 delegates present. On motion of H K Bradbury of Hallowell, seconded by L D. M Sweat of Portland, Hon William P. Haines was unanimously nominated. The proposal to appoint a committee to inform him of his nomination was negatived, and after adopting resolutions the Convention adjourned.

The Press says Mr Haines has been lying dangerously sick at his residence in Biddeford several days. This morning he is somewhat better. It is understood that he has repeatedly and invariably refused when spoken with on the subject to allow his name to be used in connection with the Congressional nomination, the state of his health being such as to render it impossible for him to risk the excitement consequent upon a political campaign. He furthermore declares that he has no taste for official life and prefers to spend the evening of his days in attendance upon his accustomed business and in the quiet of his family circle. It is probable that the hopelessness of an election may induce him to permit the use of his name, but he will do that much reluctantly, is not decided by any one at all conversant with his feelings upon the subject.

MORNING CAROLS.

Past six o'clock in the morning.
And Dinah is still sound asleep;
Of this wonderful, rosy dawning
She's not so much as a peep.
The birds north her window are wild
With their efforts to wakon the world:
"Time's up, little Dinah," they say, "Coo!"
Underlying co-world carolers.
"Wake up, little Dinah," they say, "Coo!"
"And spring from your soft downy nest,
The sun is far up in the sky,
The fowls are out long ago to the best,
At the very first glimmer of light
That tipped the gray hills far away,
Was sent gaudily to the night,
And welcomed the fair rosy day.

"The robin is picking his berry
The woodpecker taps at the tree,
The thrush on his bough of the cherry
Is lustily for you and for me;
Then wake, little girl, in the morning,
When the flowers are all basking in dew,
When the wonderful beauty belonging
To young life is fresh, bright and new."
